MEMORANDUM

TO: KENTUCKY REGISTERED SANITARIANS

FROM: GUY F. DELIUS, SECRETARY- TREASURER
REGISTERED SANITARIAN EXAMINING COMMITTEE

SUBJECT: NEW R.S. FIELD HANDBOOKS

DATE: OCTOBER 1999

Guy

The Registered Sanitarian Examining Committee is pleased to announce the new Registered Sanitarian Handbooks are now available and your copy is enclosed. The process of revising and developing this handbook has been a long and tedious endeavor for those involved. We hope this informational supplement will be a benefit to you in the field, providing accessible information when you need it.

The Handbook is designed with a spiral bound top for quick and easy references. The Handbook is covered in plastic and also printed on "Waterproof" paper, which will hold up to adverse field conditions.

Included in this Handbook is current and pertinent information relating to Public/Environmental Health, and also includes the "Manual for Environmentalists and Milk Inspectors", which previously was a separate document.

Each Registered Sanitarian will be provided with a Handbook at no charge. A replacement Handbook may be ordered for \$10.00.

Thank you for your patience in waiting for this handbook to be developed, and for your assistance in helping Kentucky Registered Sanitarians promote and enhance the health and well being of our Commonwealth's citizens.
